

TechTrex Card Pro

Branch Instant Issuance

Instant Issuance End-to-End Solution

CardPro Instant Issuance enables banks to issue personalized and activated cards at the branch. This solution enables banks to instantly issue client chip cards with magnetic stripe. TTI CardPro software, offered by TechTrex, is an end-to-end solution that is not associated with any personalization equipment vendor or card manufacturer.

✓ Issuer Advantage

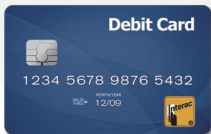

- » Attract customers to the branch
- » Capture new card holders
- » Improve the speed and efficiency of issuing client cards

✓ Cardholder Advantage

- » Immediate availability of the card
- » Positive in-branch experience
