## PIN Change Solution

TechTrex Inc. offers a complete hardware and software in-branch PIN change solution, which does not require a PC to change or activate Smart Card PIN. EMV-compliant TechTrex terminals are used to enter and verify the smart card PIN. SelectPIN dramatically improves customer service within the branch. Moreover, the issuer does not bear the cost and risk associated with mailing PINs to their customers.

### End-User Advantages:

- User-friendly, self service for your customers
- Fast and convenient

### Issuer Advantages:

- Cost-effective solution
- No PC required, no staff involvement
- Hardware & Software all in one solution
- Secure in-branch solution for PIN selection

### How does SelectPIN work?

- Step 1: Swipe or Insert Card
- Step 2: Card is verified by the Issuer
- Step 3: PIN Selection
- Step 4: PIN Confirmation
